DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 2, and 4-7, drawn to methods of preparing stabilized solutions of maleimide and acrylonitrile, classified in class 252, subclass 182.18.
- II. Claim 3, drawn to method of storage of solutions of maleimide and acrylonitrile in an oxygen defined atmosphere and contact with a metal, classified in class 422, subclass 41. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation, different functions, and different effects. The method of storing as claimed does not require the use of the stabilizers, which is required for the methods of preparing as claimed. The method of storing as claimed does require the manipulation of the oxygen content of the atmosphere and contact with a metal, which are not required for the methods of preparing as claimed.

A telephone call was made to Omri M. Behr at 732-777-9050 by Examiner Matthew A. Thexton on 13 November 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Application/Control Number: 09/473,415

Art Unit: 1714

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew A Thexton whose telephone number is 703-305-5085. The examiner can normally be reached on Monday-Friday, 8:30 to 6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasudevan S Jagannathan can be reached on 703-306-2777. The fax phone numbers for the organization where this application or proceeding is assigned are 703-306-3186 for regular communications and 703-306-3186 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-306-5665.
